

# G6090 LASER CUTTING MACHINE

## Product features :

Working area: 600X900mm

Power: **80 w RECI**

Laser tube type: 8000-10000 hours working life time

Control mode: USB interface

File export Software: READER

Compatible file design software: Photoshop, Corel draw, AutoCAD, etc

Files Support:: bmp, plt, eps, poses, jpg, ai, tiff, dxf, dwg, cdr, tga, jpeg, DST

Mechanical orbits: Taiwan HIWINbrand orbits, with high precision and long life time.

Motor and driver type: Step motors and step drivers

Cooling type: water pump

Table type: (engraving and cutting) strip type table.

360 degree slope engrave: Support

Laser power : **80W**(optional)

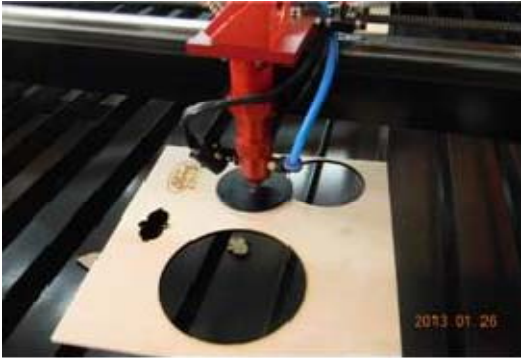

Laser tube type: CO2 glass tube.

Power supply: AC220±10, 50 HZ

Applications and product samples:

### Main accessories included:

- 1) 1\*Air pump (blowing dust during work)
- 2) 1\*Exhaust fan with Tube clips (heat radiation and smoke extraction)
- 3) 1\*water pump (used for small power tube to cool the laser tube) or chiller (used for bigger power tube cooling)
- 4) 1\*USB Cable (connecting PC and machine)
- 5) 1\*CD or electronic documents (including software, user manual, guiding videos etc)
- 6) 2\*Power cables
- 7) 1\*Tool box (for routine maintenance)

### Quality warranty:

1. The laser tube of normal tube is 3 months, RECi tube is 8 months
2. The other parts of machines are all one year.
3. Technical service is whole life time of the machine
